Description

The Transcend USB 3.1 RDFS card reader is a fast and convenient solution for transferring data between your memory cards and your computer. It supports a variety of card formats, including SD, SDHC, SDXC, microSD, microSDHC, and microSDXC, allowing you to transfer photos, videos, music, and other files quickly and easily.

Equipped with USB 3.1 Gen 1 technology, the RDFS delivers blazing fast read and write speeds of up to 5 Gbps. This means you can transfer large files in seconds, saving valuable time and improving your workflow efficiency.

The compact and portable design of the RDFS allows you to take it with you wherever you go. Simply connect the card reader to a USB port on your computer and you're ready to access and transfer your files quickly and easily, without the need for additional cables.

The RDFS is also compatible with Windows, macOS, and Linux operating systems, providing broad compatibility with a variety of devices and work environments.
